TWIN FALLS, IDAHO 83301

To Our Valued Customers & Friends,

We are proud to announce our **100th Anniversary in 2012!**

The history of our store started in 1912 when Mr. Lawrence Clos opened Clos Book Store on Main Avenue West as a book supplier for the Twin Falls School District. Gradually the bookstore expanded into books, office supplies, gifts and greeting cards. Mr. Clos sold the business to Mr. & Mrs. Ed Purves upon his retirement in 1946. They continued the business until retiring in 1976 when we purchased the store. 1980 brought some changes as we discontinued the book department and began operating as a full time office supply store, Clos Office Supply. We are so proud of our history and for being a member of the Magic Valley business community for 100 years.

We are now ready for the next phase...stepping forward into the digital world and business-to-business sales through our outside sales staff, on-line ordering system, fax and phone ordering. With the modern technology available we can offer the same great service as a warehouse without our retail storefront.

You will be dealing with the same people...in most cases the same way. Our phone, fax number and our on-line address will remain the same along with our "always free" delivery service. Or if you prefer, we now will offer drop-shipment direct from the supplier to your address. Delivery will continue to be next day on most items and we will continue to stock "urgent need" items for same day delivery.

We will continue to do business in the storefront on Main Street until February 15th and then we will move our business office to it's new location in the Lynwood Executive Offices, at 530 Blue Lakes Blvd. N. thereafter.

We are excited for this new venture in servicing you, our loyal customers well into the next 100 years!

Cordially,
